MATERIAL AND FINISH
CHOICES:
WHITE ACRYLIC

APPLICATIONS:
COMMERCIAL, RESIDENTIAL
AND HOSPITALITY
INSTALLATIONS

DESCRIPTION

This diffuser set consists of a white acrylic silhouette diffuser and an extremely shallow white metal housing to give a very low installed profile off of the mounting surface. The diffusers are suitable for either ceiling or wall mounts in commercial, residential, or hospitality applications.

The effect of this configuration is that the housing is hidden behind the diffuser at virtually all viewing angles, which in turn gives the fixture set a "shallow silhouette" effect. A unique latch system, which is hidden by the diffuser, contributes to the design motif. The diffusers are available in pressure formed matte white acrylic with impact additive.
