

METRO END CAP BATH BAR

A natural extension of the existing End Cap Bath Bar series of vanity diffusers, the Metro End Cap Bath Bar offers the OEM an additional design option for fluorescent linear vanity luminaires.

A 3/4 round, elegantly scalloped end cap is mated with a choice of smooth white, clear ribbed, white ribbed, or frosted ribbed extruded lenses to create an architecturally distinctive design. End Caps are available in a choice of solid and marble colors.

The Metro is sized to fit industry standard 2', 3' and 4' fluorescent strip fixtures and utilizes the existing RLR end cap spring clip for attachment to the fixture housing.
