The End Cap Bath Bar series of diffuser assemblies allow the lighting designer and manufacturer to produce a cost effective, yet elegantly styled luminare. The diffuser assembly consists of a solid white, clear fluted, or white fluted profile mated to a choice of end cap sizes and colors. By utilizing our spring clips with a standard 1-lite strip fixture, a low cost luminare with a high perceived value can be achieved. The spring clips, when fastened to the strip fixture, creates a pressure fit mounting method, allowing the completed luminare to be suitable for either vertical or horizontal wall mounts. In addition, the diffuser assemblies are ADA compliant. A range of colors are available from basic opaque white to a family of marble effects. RLR has developed colors which can emulate effects of translucent alabaster or marble grains, or a variety of opaque faux marble finishes. RLR can also develop a custom end cap color, shape, or custom profile for proprietary applications if requested by the manufacturer. Custom diffuser lengths are available, please contact the factory for details.

ORDERING INFORMATION

All RLR End Cap Bath Bars are individually packed. Bulk packaging provided upon request.

Each RLR End Cap Bath Bar requires 2 pcs. of ENDCAPCLIP spring clip for fastening to the strip fixture. The ENDCAPCLIP product is bulk packed and must be ordered separately.

Wide caps can be sandblasted upon request (Sandblast option).
